

Godsmack, Moon Baby

Spoken:

Moonlight is thought to transform some people into strange creatures to drive others mad.

Hola, soy Fernando Allende.

One small step for man...giant leap for man...

Does the moon actually possess such strange powers? Or is it all just lunacy?

Let's take a blast to the moon baby

I sit around wishing you well

How I'm craving you

Yeah

Every time I'm near you

I always wanna swallow you down

I'll be right here if you need me

In my life, I'll need you here

Don't ask why and I'll never disappear

Why is it everyday that I feel the pain?

Ah yeah

Let's take a trip to the stars far away

Where were you when I was down?

Staring into the dead,

Dead

My pain is caused by my pleasure

And my soul mate lives in your body

I can't get you out of my head

It never goes away

In my life, I'll need you here,

Don't ask why and I'll never disappear

In your eyes you can bid me farewell

Don't ever try to understand my situation

Why is it everyday that I feel the pain?

It always comes when I least expect it

When I'm looking for love,

always seem to be regretting it

Why is it everyday that I feel the pain?

Oh yeah, yeah

I had nothing to do with this

Tolerance, tolerance for pain

And we can't have weakness

No, I can't stop

I had nothing to do with this

I had nothing to do with this

I had nothing to do with this

I had nothing to do with this

And we can't have weakness

And we can't have weakness

Tolerance, tolerance for pain

Tolerance, tolerance for pain

Tolerance for pain

Tolerance for pain.

No, please God.

Don't be sad that I feel this way.
I'd rather just keep makin' the same fuckin' mistakes over and over and over again.
Please, can't this fuckin' mistake be over?
