Godsmack, Serenity

As I sit here and slowly close my eyes I take another deep breath And feel the wind pass through my body I'm the one in your soul Reflecting inner light Protect the ones who hold you Cradling your inner child

I need serenity In a place where I can hide I need serenity Nothing changes, days go by

Where do we go when we just don't know And how do we relight the flame when it's cold Why do we dream when our thoughts mean nothing And when will we learn to control

Tragic visions slowly stole my life Tore away everything Cheating me out of my time I'm the one who loves you No matter wrong or right And every day I hold you I hold you with my inner child

I need serenity In a place where I can hide I need serenity Nothing changes, days go by

Where do we go when we just don't know And how do we relight the flame when it's cold Why do we dream when our thoughts mean nothing And when will we learn to control

(break vocals in background)

Where do we go when we just don't know And how do we relight the flame when it's cold Why do we dream when our thoughts mean nothing And when will we learn to control

I need serenity [x2]
