

Gojira, Blow Me Away You (Niverse)

Reverse, blow me in that black hole down there
Return through perfect circle of my retina
No Gravity
Watch Out! Hang Out! F**k Off!
Beyond! Out Yonder! Upsidedown

I bleed on you so ease my pain,
Blow Me Away You !!!!!!!!!!!!!!!
Smash Up! wash away the blood from my body
I see this halo of dust all around
But my vision is clear
I know I don't have any forces left
To go the distance

La dame des fauves
I defy you, Artemis
Shoot me between the eyes
I want to face the day of reckoning
Reunite, I want to embrace your light

Implode, explode, both at the same time
Destruction, let me disappear, fill my empty,
Go to venus ('s)
