

Golden Earring, The Song Is Over

* Radar love

For you I say our praise is sung

Tell the collar on the sky

A new rose in the universe

Sing a lullaby

More... ..out of dirt

So close to me

He robbed me of my strangerhood

And flew away to be free

The song's over

The song's over now

Assuming our sad goodbye

The song's over the tune stays in my mind

Baby, baby sing it one more time

Close to my ear

Mellow toned vibrations come

Sadness disappears

Do it to me once again

Before you say goodbye

Embrace me softly with your smile

The song's over

The singer said goodbye

The song's over

It's Doomsday on my mind

I close my eyes and sail away

The juke-box played your song today

Tomorrow has been like your yesterday

I can't forget what you used to say

Open your eyes and live my love!

You see it's not me you're dreaming of

Though it seems so important now

Singing makes it all seem so good somehow

The song's over
