

Goldfinger, San Simeon

where ever i go, where ever i stay
my mind will always be (2x)
in San Simeon

they tried to rob me
take away my integrity now
they try to snake me
take away my dignity
but not my memory

where ever i go, where ever i stay
my mind will always be (2x)
in San Simeon

they tried to blame me
point their little fingers at me
they tried to save me
but that just masks their jealousy
but not my memory

where ever i go, where ever i stay
my mind will always be (2x)
in San Simeon

take me back (x7)

San Simeon

no matter what they say
what they do to me
they can't touch me
they can't control me
one thing that they'll never touch
my holy memory
no, not my memory

now take me back
take me back (x3)
now take me back
take me back (x3)

wherever i go, i'll stay
and my mind will always be
wherever i go, i'll stay
and my mind will always be
wherever i go, wherever i stay
my mind will always be
wherever i go, wherever i stay my mind will always be
San Simeon
