

# Goldfrapp, Stranger

Stranger, when you look at me  
Eyes strong as steal  
Light as day

Born a mystery  
You're the in between  
Boy or girl

Wilder, than I've known before  
Fire rushes through  
Every vain  
With a smile that sings  
You'll be killing me tenderly

Every word is soft as fur  
I'm drifting deep deeper in

Stranger, will you remember  
Stranger, make me remember you

Taken by the crowd a tide  
It's there then gone do or die

Stranger, I dream of you and  
Stranger, I will never know
