

Goldfrapp, Stranger

Stranger, when you look at me
Eyes strong as steal
Light as day

Born a mystery
You're the in between
Boy or girl

Wilder, than I've known before
Fire rushes through
Every vain
With a smile that sings
You'll be killing me tenderly

Every word is soft as fur
I'm drifting deep deeper in

Stranger, will you remember
Stranger, make me remember you

Taken by the crowd a tide
It's there then gone do or die

Stranger, I dream of you and
Stranger, I will never know
