

# Gong, Zero The Hero And The Witch's Spell

I love you mister Pixie  
I love you  
All I want to do is to be you...

I love your face  
I love your space  
I love your rays baby  
And if you like  
I&#039;ll stay tonight

I could swear that I saw it up in the sky  
On the eve but I never knew they could fly  
It was green as an emerald in the blue  
Now I&#039;m wondering if it was really you
