

# Good Charlotte, Mountain

Whoa

All these dreams and all these plans  
I built them all with these two hands  
Everything, I've realized my dreams  
The city lights shine down and they blind me sometimes  
But through it all  
I was lost but I found my way

So tell me what you want  
Cause I would give you anything  
Tell me what you need and I'll go get it  
I'd give up all these dreams  
To have you in my arms right now  
I'd give up everything and I'd forget it

I wasn't on a mountain  
When it came to me  
All my lives been wasted  
Chasing shallow dreams

So here we are  
Let me lift you up and show you this world over me  
And all these things  
What I've gained  
And what I've seen  
It can't compare  
To the love that you could give to me

So tell me what you want  
Cause I would give you anything  
Tell me what you need and I'll go get it  
I'd give up all these dreams  
To have you in my arms right now  
I'd give up everything and I'd forget it

I wasn't on a mountain  
When it came to me  
All my lives been wasted  
Chasing shallow dreams

Years go by and nothing's slowing down the time  
Years go by and then they're wasted  
All this time  
I thought that I gained everything  
If you're not mine, I'm so empty

I wasn't on a mountain  
When it came, when it came to me  
That all my lives been wasted  
Chasing shallow dreams

So please come back to me  
I'm right here waiting  
So please come back to me now
