Good Charlotte, Mountain

Whoa

All these dreams and all these plans I built them all with these two hands Everything, Ive realized my dreams The city lights shine down and they blind me sometimes But through it all I was lost but I found my way

So tell me what you want Cause I would give you anything Tell me what you need and III go get it Id give up all these dreams To have you in my arms right now Id give up everything and Id forget it

I wasn't on a mountain When it came to me All my lifes been wasted Chasing shallow dreams

So here we are Let me lift you up and show you this world over me And all these things What I've gained And what I've seen It cant compare To the love that you could give to me

So tell me what you want Cause I would give you anything Tell me what you need and III go get it Id give up all these dreams To have you in my arms right now Id give up everything and Id forget it

I wasn't on a mountain When it came to me All my lifes been wasted Chasing shallow dreams

Years go by and nothings slowing down the time Years go by and then theyre wasted All this time I thought that I gained everything If youre not mine, Im so empty

I wasn't on a mountain When it came, when it came to me That all my lifes been wasted Chasing shallow dreams

So please come back to me I'm right here waiting So please come back to me now
