

Good Charlotte, Purple Pinnapples

Purple pinnapples

There's a question that I need to know

And the question and the question is that I need to know is what have I smoked

Coz all around me I see purple pinnapples

They look quite like my nipples

They are comming at me

There comming at mehe

Look to the west oh look there flies a breast

Look to the east there's a mighty magnificent beast

And all it is

And all it is

Is my purple pinnapples that look like my nipples coming at me

Poking out I know that this sounds kool but really its not I feel like a fool

Coz the east and the west im seeeing big white breasts

But really it's only millions and trillions and billions and zillions of mighty magnificent big and plump
