

# Good Charlotte, The Love

You think you're cool  
You're in a band  
Couldn't get a girl  
now you're in demand

Did you put them down?  
Did you leave them out?  
Now when we play  
you scream & shout

Could he write a song like this?  
I'm the one you're gonna miss

The love I saw, you couldn't see  
I always knew we'd never be  
Could you love me now?  
I can't love you now
