

Goodnight Electric, Number 1

We are so alive
Loud in your mind
Electronic sight
And you all right
We are in a spot
Light and a crowd
Through the blockade wave
Now you are safe
Feeling good
We are move
No interlude
And we said
You're something
High attention
We're lying
On your door
So amazing
Sounds and motion
We're dancing
On your floor
Cuz you are number one
Something in your hair
Oh you don't care
Flying through the air
Not really scare
Use your shoes and glue
Nothing is true
This is how we do
Now you are knew
Feeling good
We are move
No interlude
And we said
Are you good?
We are move
In the mood
And we said
