

Goon Moon, I Know Where You Live

I know where you live
I've seen where you sleep
Got nothing to give
Forever to keep

I won't forgive
Your reign/rain was too deep
There's no more to give
The road was too steep(?)

People try to pull us down
Wave my weary hands around
But I know I'm not like you

Days go by
I sit around and thinking
Wonder why
I'm glad
I got away from you

I won't forgive
Your reign/rain was too deep
There's no more to give
The road was too steep(?)

People try to pull us down
Wave my weary hands around
But I know I'm not like you

People try to pull us down
Wave my weary hands around
But I know I'm not like you

(?)
I hate to hear that sound
I'm outside of you
You're inside this town

(?)
I hate to hear that sound
No no
I'm outside of you
You're inside this town

No no no
