

# Gordon Lightfoot, Go-Go Round

Alone upon the sidewalks of despair  
'Twas there she wandered  
With her suitcase in her hand  
Her fate she pondered  
Only a go-go girl in love with someone who didn't care  
She met him on a night so rare when her friends were there  
And the band was groovin'  
When he gave a glance that said how much he would like to meet her  
How was she to know at the time  
He would mistreat her

In her case she danced for him although a hundred eyes were turned her way  
And before the set was through he knew  
She would be his loved one

Only a go-go girl in love with someone who didn't care  
Only twenty-one, she was a young girl just in from somewhere

He's playin' up in Michigan with a group they call The Intended  
With a kiss, and a promise, he was gone  
The song was ended

But as she walks, she waits for him the pavement is a shoulder for her tears  
But in her heart she knows there is no way  
She can hope to change him

Only a go-go girl in love with someone who didn't care  
Only twenty-one, she was a young girl just in from somewhere

Only a go-go girl in love with someone who didn't care  
A go-go girl in love
