## Gorerotted, Fuck Your Arse With Broken Glass

Bent across the wall, held she cannot budge With the broken bottle in my hand I cut her arse like fudge Blood pours on my shirt, the wench begins to whine As violent pain and agony tickles up her spine

He laughs and licks his lips as her bowels drop on the floor Watching as she floods the ground with putrid grime and gore The pain inside it gets too much, his victim passes out He stamps and hits and batters hard nad kicks her while she's down

Rectal rape with splintered glass pushed with force up the victims arse Razor slices need to be stitched as the arse cheeks split to bits

Feeling numb, beaten, abused Lying still. after being abused

These sick pleasures people find >From raping people from behind
