## Gorky Park, Stranger

Stranger next to me, have I seen your face Stranger next to me, have I seen this place Oh stranger you're so close I can hold your hand I'm a stranger oh just like you don't you undestand Oh stranger

Silence stopped the time I can hear your heart Glimmer of your eyes reach me from the dark I'm dreaming or may be not clothing's falling down All matters we're giving up

Cause nothing matters now

Oh stranger

Between the walls and face to face. Oh stranger We won't have another chance. Oh stranger

There won't be another night

Oh stranger With me tonight You're stranger With me all night

My stranger

Flowers on the floor, all around your hair Morning at the door, I don't think you care You wisper in my ear, shiver in my arms Don't let it stop, don't go away Screaming in your eyes

Oh stranger
