

Gossip, Swing Low

Better make it good
Better make it now
Well, baby we'll shake it hard
Nobody has to know
Sweet baby
Momma's baby
There's only one thing that can make you my lady
Swing low, down low, sweet chariot
If you know what I mean
I saw your face
Like you've never seen
Sweet baby
Momma's baby
There's only one thing that can make you my lady
Swing low, down low, sweet chariot
Make it uh, uh good
Make it, make it, make it now
We'll keep it our secret, honey
Way down low
Between me and you girl
Nobody has to know
Sweet baby
Momma's baby
There's only one thing that can make you my lady
Swing low, down low, sweet chariot
