

Gotthard, Cheat & Hide

Looking back I wonder
How long have you been lying to me
Guess, no matter how hard I try
I'll never solve the mystery

Our life is a game
A game we play
Which rules I've never seen
And day after day
Night after night
Makes me wanna scream

Chorus:
I don't wanna die
For a woman like you no more
I had it all before
I will take it no more
Gotta stop this cheat'n hide

Who said we're in for trouble
All I know he sure was right
We start a night in heaven, and
We end it in a fight

Our life is a game
A game we play
The winner takes it all
But lady luck is blindfold
Your back's against the wall

[Chorus 2x]

No I don't wanna die, no more.
