

Gotthard, Get Down

Baby, is it right to fantasize
I said lady, I can't get this out of my mind
Yes I'm smoking I'm burning
I'm twisting I'm turning
Got to give a lot of love
Woman I'm learning
Baby, you let me run all night
And I can't stand it no more

I get down, I get down, on my knees
And you know, yes you know, how it feels

I'm walking in the streets
And nobody cares for me
They keep on telling me
Nothing in this world's for free
My heart is on fire, right out of space
Such a killer body, with a little girl's face
Lady, is it right to fantasize... oh yeah!

I get down, I get down, on my knees
And you know, yes you know, how to tease, baby..

Let's rock tonight

I get down, I get down, on my knees
And you know, yes you know, how to tease, baby..
