

# Gotthard, Let It Rain

Lady Jane  
Will we ever meet again  
The times we had  
I count 'em day by day  
All the pain  
That we gave each other then  
Was not enough to wanna make us run

Who did say this life will last forever  
We're standing at the crossroad once again  
All the things in life are  
Growing slowly in progress  
I know, we got to listen to the flow

Let it rain, let it rain  
Till the sun comes back again  
The answer is your only friend

We walk this path, slowly step by step  
We don't have to force it, just believe  
There's a place deep inside  
Where we've never been before  
I know we can be there, you 'n me

Who did say this life will last forever  
We're standing at the crossroad once again  
All the things in life are  
Fading slowly in progress  
I know, we got to listen to the flow

Let it rain, let it rain  
Till the sun comes back again  
The answer is your only friend  
Let it rain, let it rain  
'Cause I know we'll meet again  
Freedom will be there in the end

Hope you find your paradise  
I wish you all the best of times  
Have faith in love and please don't cry

Let it rain, let it rain  
Till the sun comes back again  
The answer is your only friend  
Let it rain, let it rain  
'Cause I know we'll meet again  
Freedom will be there in the end
