

Gotthard, Mean Street Rocket

I get up, I get down
Bad luck, for those who mess around
The streets of fire

Look out, he's around
Can you feel the shakin' ground
He's ridin' again
The streets of fire

No time for compromise at all
Thunder, lightning, here it comes again

This is the mean street rocket
This is the mean street rocket
This is the mean street rocket I like, yeah I like!

It's going hot, everywhere
Gasoline's in the air
He's going to light up
The streets of fire
