Gotthard, Mean Street Rocket

I get up, I get down Bad luck, for those who mess around The streets of fire

Look out, he's around Can you feel the shakin' ground He's ridin' again The streets of fire

No time for compromise at all Thunder, lightning, here it comes again

This is the mean street rocket This is the mean street rocket This is the mean street rocket I like, yeah I like!

It's going hot, everywhere Gasoline's in the air He's going to light up The streets of fire
