

# Gotthard, Open Fire

Get ready to burn on my side  
Ready to mess with life  
Cold as ice, sacrifice  
Do you really want me for the night

Gotta turn your mind down under  
Get down on your knees  
A slice of love babe  
I see is that what you want  
Want to make out of me

Now you're riding on my trail  
Hungry little woman  
Gotta shoot a rockin' man  
If you wanna touch my soul  
It takes a whole lot more  
Ain't gonna say it again

Open fire  
Open fire

Drown eyed strolling woman  
I wonder if you bite  
Deep inside, dynamite  
Ready to burn  
In the heat of the night

Get the gun and keep it loaded  
Your big eyes open wide  
Livin' on a dare, a hit and run  
Better beware  
'Cuz the fight has just begun

Now you're riding on my trail  
Hungry little woman  
Gotta shoot a rockin' man  
If you wanna touch my soul  
It takes a whole lot more  
Ain't gonna say it again
