

# Gotthard, Where Is Love When It's Gone

This is the life that we get  
These are the cards that we've been dealt  
Why do we doubt, when we should turn our way

There's only one shot, one chance  
It can be done within a glance  
Together we go, it's a walk on this wire

I don't want to believe that we're givin' up  
On a world that's growing cold  
The story's getting old

Where is love when it's gone with the wind  
and a saint would turn to sin  
Where is love when a kid's gotta run  
in a blaze from a gun  
Where is love when a man has to say  
I see my whole life fade away  
Where is love when the hate is too strong  
Where is love when it's gone

Is it beyond the sea  
Does it hide beneath the willow tree  
Waiting for us to get back where we're from

Hope you will forgive us for what we've done  
We don't know where to begin  
We're too numb to take it in

Where is love when it's gone with the wind  
and a saint would turn to sin  
Where is love when a kid's gotta run  
in a blaze from a gun  
Where is love when a friend fades away  
On the streets where we used to play  
Where is love when the hate is too strong  
Where is love when it's gone
