

Gowan, Walking On Air

You've got more than it takes
To go the distance
You've got invincible powers
Of earth resistance
I'm the curious type
Always right where you least expected
In a world of my own
I'm undetected
(chorus)
Moving under night light
I see you
Dancing in the twilight
I near you
I'm walking on air
Beside you
Could come at any time
Under any weather
On and on I seek
The endless pleasure
No, don't be surprised
I may be disguised you know
And I think it's time you learned
I'm not so slow
repeat chorus
