Gowan, Walking On Air

You've got more than it takes To go the distance You've got invincible powers Of earth resistance I'm the curious type Always right where you least expected In a world of my own I'm undetected (chorus) Moving under night light I see you Dancing in the twilight I near you I'm walking on air Beside you Could come at any time Under any weather On and on I seek The endless pleasure No, don't be surprised I may be disguised you know And I think it's time you learned I'm not so slow repeat chorus
