

Graham Colton Band, Get To You

I heard that you left crying
Told me yesterday
Close enough to feel you
But still I'm miles away
Stuck here in the airport
My world has been delayed
Turned and it was a ghost town
And I can't stop the rain
I gotta get to you
And its all I can do
I gotta get to you
If It's the last thing I do
Look out at the runway
The rain has turned to snow
Wide oceans full of airplanes
But none to take me home
Open up your letter
You poured yourself into
It said for me to go my own way
But my way is to you
I gotta get to you
And its all I can do
I gotta get to you
If It's the last thing I do
The last call is off the ground
On the window I write your name
If I could be running
You know I'd be on my way
Made it home by sunrise
And in my bed you sleep
Wearing my grey T-Shirt
I sit and watch you dream
I gotta get to you
And its all I can do
I gotta get to you
If It's the last thing I do
The last call is off the ground
On the window I write your name
If I could be running
You know I'd be on my way
I gotta get to you
And its all I can do
I gotta get to you
If It's the last thing I do
I gotta get to you
And its all
Its all I can do
If it's the last thing I do
I gotta get to you
Its all
All I can do
I gotta get to you
I'm coming home to you
