

Grand Belial's Key, The Shitagogue

Shit paints the sides of the chosen edifice
A goat is murdered to terrorize god
Inhumane sympathy for anal palpitations
Untamed methods of blood baptism

In constant fear the female hideth
A dirty gypsy in a land of crooks
Her menstrual offerings stain the altar
The legions hail the Teutonic sign

Passover genocide
Merciless fire

Hounds of misery and infectious wounds
Crippled pig fixed by a slew of silver spikes
Web of misfortune and deceit
Lord of the nomadic human pork

Tyranny returns
The synagogue burns

Proselytes can't abstain from fucking
Full of pus were the arteries of the elders
Miscreants wage impious battle
Christ bears not a single weapon
His bones crushed by the hammer
Then drowned at night in the morasses

Satanic bullets destined to perforate
The chosen people of ZOG
Hordes of true Black Metal arsonists
Roast the red fathers of the protocol
