

# Grand Magus, Fear Is The Key

Hear crushing thunder  
Electrifying storm  
Winter is calling  
Time to hold one's own

Fear is the weapon  
The break the cage of man  
Control lies inside me  
The terror reveals the plan

Unbeliever, unbeliever  
The mind will tell me how  
Fear is the key

Last of the shadows  
Screaming out my name  
Strong determination  
A guide through searing flame

Blind believer  
Choose the easy way  
Pray for absolution  
You know you've gone astray

When blackest depths will face me  
Ask no one's help, to break my fall  
Born, dead and free forever  
I know that fear is the key.
