

Grand Theft Audio, Drugs & Girls

Celebrate thought crime
Censorship is gonna waste your mind
If it's dark and it's tasteless fine
We shower, more power
Try and make us weaker by the hour
And now the battle's begun
Means the end for some
Until the goddamn world is overrun
With a boy band softly singing
Deep inside my mind I'm thinking

Today your drugs, tomorrow your girls
Will be mine

I'm gonna make this plain
All this shit's driving me insane
Do you think you change it? lame.
They fool you, they rule you
If they needed a prick, then they'd call you
Now you're suitably dumb, and yeah you're selling a ton
Until your goddamn life is overrun
With the bullshit, yeah you swim in
Deep inside your mind still thinking

Today your drugs, tomorrow your girls
Will be mine
