## Grave Digger, Murderer

You bloody liar I feel the spear You've spread the poison And I've learned my lesson I hear the wind, Whispering in my ear I see the light of day I feel death is near

Murderer - What have you done Murderer - The hero's gone Murderer - With pain you shall die Murderer - Your soul will cry

The sun goes down, the night is falling Gods of darkness surround my soul You faceless evil, you took my blood, Heaven knows who murdered me

Murderer - What have you done Murderer - The hero's gone Murderer - With pain you shall die Murderer - Your soul will cry
