

# Grave Digger, Paradise

Planet is so sweet  
Like you never see before  
And the stand of the crown  
Licks on I day I shall return

Cold side of the war  
Try to your life are never know  
And the night rests of lie  
By the times you never no time

Living in the paradise  
See burning life

On night blow and go  
Wish I never want forget  
Silent day through inside  
Feel the sky scared blaze

When is no lying true  
Because the fate in the world  
Only men trying to keep  
On the time can never heal
