

Grave Digger, The Truth

Tonight I had a weird dream
I saw a demon eating men
he crushed Skulls to dust
His eyes filled with a black lust

The demon rules the battlefield
Religion rules with pain and steel

God is love
Hell is open

[Chorus:]
Searching for the truth
Searching for eternal life
Searching for the truth
You reach heaven but you're
Headed for hell

I've seen brother fighting brother
I've seen friends kill each other
Love is preached to mankind
Just believe death you'll find
