

# Grave, Turning Black

Welcome to sinland  
The paradise of the damned  
You give me pleasure I give you pain  
When I am done you'll never see again

There is no turning black  
I'm turning black

Lost is our glorious world  
Sin we explore  
We enjoy your pain  
And through your pain we will be reborn

To fulfill my endless desire  
I enter the land of fire  
To create my infernal breed  
It's your blood I need

Your life is under siege  
I slay you I damn the weak

To fulfill my endless desire  
I throw myself into the fire

Welcome...

There is no...  
I am the black..
