

# Gravediggaz, Unexplained

\*Chorus\*

Behind the ghetto plains, the warfare reign  
Must we be the bearer of bad terror the mystery  
behind the unexplained...  
Let us pound it through your brains (through your brains)

(Too Poetic/Grym Reaper)

Yo I'm the immovable object, that dwells up in your project  
Deeper than mob threats, the Reaper's on the set  
Each word spring a cold current, to hurt niggaz  
like old warrants, make an MC, life insurance  
plots unfold that rock moles and rock souls  
My title be the sniper inside of the foxhole  
Data, scientific, not just the typical  
waste matter my third eye expands my periphreal  
See I, only attack, savage animals  
Damage em, horizontally plus diagonal  
Ain't nothin be traumatical my squadron  
buries the beast, underneath, the New York City Botanical  
Garden, I'm the Adam and the, Eve of Destruction  
In volcanic eruption, biological dust  
be turnin into anatomical rust, reastonishing crush  
Ash to ash, dust to dust

(all together)

Check the smoky branch camouflage, geared down for warfare  
Save your career if you walk here, the New York air  
assaults mortals, through they ear portals  
Nowhere to hide when we caught you in the crosshairs

\*Chorus\*

(Fruitkwan/Gatekeeper)

Gaze upon the stars, Allah U Akbar  
Gomer Oz Dumar, Gatekeep shine rays upon the Gods  
Diamond crystal lens mind reflects above the sword  
above the head, damage your God-body Judge Dredd  
Nuff said, silence acts relentless brutal when attack  
A hundred times, more power, poundin media shower  
I confront you wise man or spring off like Geechie Dan  
in a land, enchanted by crystal been in galactic  
meant potential, potent, mine increases through the smokin  
Balance a dextraphobin high explosive explosions  
Week Omega, I amputate your lever dissect your pever  
Make your diva deep, throw off my second teaser  
Activate off thought waves, picked up by moray  
eels makin you distill back to earth like a astro  
In a light fluffy form called snow...  
Gravediggaz nigga

\*Chorus\*
