

# Gravitonas, People Are Lonely (feat. Army Of Lov

Life is a rollercoaster life is a rattlesnake  
Lost in a crowded place people are lonely  
Life is a kitschy poster life is a massive waste  
Cries you can't hear in space people are lonely

While I'm fighting to stay human  
I portray a crying clown  
Cause we're cruising with acumen  
When the world is upside down

Ooh oooooh people are lonely

Love is a great seduction love is the endless cruise  
Next to the one we love people are lonely  
Love is a flashy cocktail love is the drug abused  
Begging the gods above people are lonely

While I'm fighting to stay human  
I portray a crying clown  
Cause we're cruising with acumen  
When the world is upside down

Ooh oooooh people are lonely

That's the game God made us play  
That's the way things got to be  
That's the game God made us play  
Seven billion lonely souls

L'amour est la grande séduction  
elle est la croisière sans fin  
L'amour est un voyage solitaire infini o? les gens sont seuls  
L'amour est un cocktail flashy  
elle est le médicament abusé  
Des regards des mots désespérés  
Suppliant aux dieux mais les gens sont seuls  
Sept milliards d'âmes solitaires
