

Great Big Sea, Everything Shines

Hey, come this May
We'll be runnin in the sun again,
Your time will come.
Your just a young broken heart
I'll be sleepin in the yard
How could you be so dumb?

All we losers stand in line,
just waiting for our time
Broken angel take that plane
And finger paint the sky
Till everything shines
Everything shines
Everything shines
Everything shines

Oh, broken clock, haven't heard your
Old tick tock in there for much too long
And lonely juke box in the corner
Of a night club and I need your song

All we losers stand in line,
Just waitin for our time
Broken angel take that plane
And finger paint the sky
Till everything shines
Everything shines
Everything shines
Everything shines

All we losers stand in line
Just waiting for our time
Broken angel take that plane
And finger paint the sky
Till everything shines
Everything shines
Everything shines
Everything shines
