

Great Northern, The Middle

Watch out cause we're trouble shooting on the weekend
Tru to connect but don't hold your breath cause we can
Love you a little
Get you through
To the middle
It's a sound that you learn to hate
Try to get to you but don't be late
Cause we'll...
Love you a little
Get you through
To the middle
One - 2 - three is how you the sleep
But don't forget your mother
While you're counting sheep
Cause she'll
Love you a little
Get you through
To the middle
If the summer will be easier
To finally let me go
Let me go...
For you a little
Get you through
To the middle
Didn't mean to let you down
Just thought you'd hang around
But we've been walking for so long
