

Great White, Freedom Song

(Mark Kendall, Jack Russell, Michael Lardie)

Here am I, talkin' at the sky

Thinkin' 'bout it all

I sometimes wonder at the way my life has gone

"Hey boy you stop that runnin'";

I heard it from a friend just today

But as he spoke my heart was miles away

So get that old train rollin'

Come on Mista' engineer

Need a freedom song to call my own

Take me on away from here

Met a girl in California, she asked me if I would stay

And if I could for anyone, oh you know it babe

But soon I got that same ol' feelin'

And I tried to make some sense of it all

Well baby I've been movin' far too long

So get that old train rollin'

Honey wipe away your tears

Need a freedom song to call my own

Take me on away from here

Hearin' that whistle blowin'

Reminds me of the good ol' days

Back on the road where I belong again

Somethin' to live for, the freedom I need

Gotta keep the dream alive now

Gotta keep a piece of me

So get that old train rollin'

Head it on away from here

Back on the road where I belong

Honey wipe away your tears

Hearin' that ol' whistle blowin'

Reminds me of a brand new day

A freedom song for everyone

Back on the road to stay
