

# Great White, Gonna Getcha

(Kendall, Niven, Lardie)

Slow blues can turn her on  
But she's a whole lotta woman  
When the band rocks on  
Watch her move for the backstage door  
The show may be over now  
But she's gonna get some more  
She says  
"I know what I want  
I know just what I need"  
She says  
"You got nowhere to run  
I'm gonna get you  
You got nowhere to hide  
I'm gonna getcha  
Get you down"  
Now it's late but she don't care  
We got a whole lotta waiting  
till we can make it next year  
She knows, she knows it's hit and run  
but she wants to ride a rocket  
into the midnight sun  
She says  
"You got nowhere to run  
I'm gonna getcha"  
She gets what she wants  
She gets just what she needs
