

# Great White, Never Change Heart

(Kendall, Russell, Niven)

Howling night of bitter winds  
This old house is burnin'  
Reasons why forever retold  
and no one is learning  
Eyes Move in the strange light  
in a world with no eyes  
Miss a turn in the midnight rain  
never come this way again  
When loves light deserts you  
never change your heart  
When lightning strikes and love is gone  
don't let it break your heart  
Don't let it turn you 'round  
so people mistake you  
this worlds gonna still burn down  
no matter what it comes to  
Return what you're given  
then be on your way  
Move on. Be strong  
You gotta carry on  
Never change your heart
