

# Great White, Rollin' Stoned

(Michael Lardie, Jack Russell, Jack Blades)

All right yeah

Sippin' down shoutin' 'bout, yeah we used to shake it out

Those days, now I remember, when anything was all right

Someone had my video blastin' through the radio

Neighbors screamin' out "what the hell's going on here"

We were already gone, with a whole lot to go

When the police showed I told 'em "kiss my ass"

So young, livin' to die, and I was on my own

Two wrongs making a right, I was rollin' stoned

Rich is building houses, Gary's doing hard time

Jamie's in the desert and Brently's bought a gun

I saw an old photograph, all that I could do was laugh

And scratch my head in wonder

Where did all the days go?

We were already gone with nowhere to go oh no

I was singing my songs with a heart and soul

So young, I was livin' to die, I was rollin' stoned

Two wrongs making a right, I was rollin' stoned

It's a wonder I'm alive

Can't believe I ever made it through that ride

Rockin' all over the night, I was rollin' stoned, yeah yeah

So young, livin' to die, I was rollin' stoned

Two wrongs making a right, I was rollin' stoned, yeah

Damn good to be alive, wonder how I ever managed to survive

Rockin' all over the night, I was rollin' stoned

Stoned, stoned, stoned, yeah

Sippin' down, shoutin' 'bout

Yeah we used to shake it out

Rich is building houses, Gary's doing hard time

Brently bought a gun

Where did all the days go

Rollin' stoned, I was rollin' stoned
