

Great White, What Do You Do

(Lardie, Kendall, Russell, Niven, Thompson)

I can't get close enough to you babe
I need to squeeze it up so tight
I can't get close enough to you babe
I need your lovin' every night
Maybe your love, maybe your love
I just don't know my mind
All your little tricks, nasty little licks
I'll ask you, ask you one more time
What do you do for love
How do you find your action
What do you do for love
That animal attraction
Don't know what I'm supposed to do babe
How do I get the message through
I can't get immunized to you babe
Oh what's this poor boy gonna do
Maybe your love, maybe your love
I just don't know my mind
All your little tricks, nasty little licks
I'll ask you, ask you one more time
What do you do for love
How do you find your action
What do you do for love
That animal attraction
