

Green Apple Quick Step, Dirty Water Ocean

Do you wanna swim in garbage?
It's floating next to me
Not a ship to sail the sea
If we keep it up
You can kiss this wave away
Dirty water ocean

I'm not taking off my dip in
I'm much too much too afraid
You're looking sick and kind of frail
If we keep it up you can kiss this wave away
Dirty water ocean
Dirty water ocean

Can you feel a fin growing
Wondering what the dolphin is saying

feeling kind of dry and thirsty
I don't want to drink your disease
Skin is tough like a dead leather cow
If we clean it up you can ride this wave away
Dirty water ocean
Dirty water ocean

Can you feel a fin growing
Wondering what the dolphin is saying
You will never live there in your mansion
Pray that you die when it's empty
