Coma city Open your eyes Dead on arrival Under smoky skies

Coma city Children at play Back from the chemist To mass on Sunday

A gun shot gun shot heads Shooting in the distance It's on your face and hands With no resistance

Coma city
Pull down the shade
Board up the windows
And drink lemonade

Coma city Don't call the cops Word on the street is They all quit their jobs

A gun shot gun shot heads Shooting in the distance It's on your face and hands With no resistance

Coma city Open your eyes Dead on arrival Under smoky skies

Coma city Mask on your face Bankrupt the planet For assholes in space

A gun shot gun shot heads Shooting in the distance It's on your face and hands With no resistance
