

Green Day, Fancy Sauce

Take me to the inn
Called the loony bin
Somewhere I can rest my head
And take it on the chin

Flowers all in bloom
In my rubber room
Scratching at the wallpaper
In my solitude

Go go
Falling like a yo-yo
Paradise for locos
Medicate my sorrow
I'm not crazy
You're the one that's crazy
Everybody's crazy
Getting stoned and lazy

As we all die young someday
We all die young someday
We all die young and watch it slip away
We all die young someday

Howling at the moon
In the afternoon
Watch the evening news
'Cause it's my favorite cartoon

Gonna join a cult
Do a somersault
Everyone's a victim
And it makes me want to puke

Go go
Falling like a yo-yo
Paradise for locos
Medicate my sorrow
I'm so famous
You're the one that's famous
Everybody's famous
Stupid and contagious

As we all die young someday
We all die young someday
We all die young and watch it slip away
We all die young someday
