Green Day, Troubled Times

What good is love and peace on Earth What's it's exclusive? Where's the truth in the written word? Of no one reads it A new day dawning Comes without warning So, don't blink twice

We live in trouble times /2x

What part of history we learned When it's repeated Some things will bever overcome If we dontl;t seek it The World stops turning paradise burning So, don't blink twice

We live in trouble times /3x

We run for cover Like a skyscraper's falling down Than I wander like a troubled mind
