

# Green Fiddler's, Fiddler's Green

In my green heaven there's a place  
Shinin' like a lover's face  
Where no one does you any harm  
But keep the baby safe and warm

It's not my crazy fantasy  
But part of my reality

And if I could have my way  
This night will never be a day  
Tonight we go to Fiddler's Green  
The fairest place I've ever seen

On cloud nine we have a ball  
Tonight we're gonna have it all  
We wet our whistles all night long  
And sing this crazy rotten song
