

Green Lizard, Self Control

Ahh Ahh Ahhhhh

Darkness I smell fumes of candles
Burning down to find my scandals
Turn to faith for my salvation
Sake my life within the patience

Ahh Ahh Ahhhhh

Countless times I see the faces
Judging me for misbehaving
How can I rebend my actions
When they feed my satisfaction
Guilty guilty living my life

(No more) can't stand your manipulation
(No more) free myself from your relation
(Self control) i've got my self control (2x)
(No more) Fuck you with your revelations
(No more) I'm better off without interrogations
(Self control) I've got my self control (2x)

Precious teardrops falling water
Time to find out why we are
Who we are
Guilty guilty

(No more) can't stand your manipulation
(No more) free myself from your relation
(Self control) i've got my self control (2x)
(No more) Fuck you with your revelations
(No more) I'm better off without interrogations
(Self control) I've got my self control (2x)

Ahh.....
